**The Tenth Annual
In2:InThinking Network Forum**

April 28-May 3, 2011 Los Angeles, California, USA

About Us

The In2:InThinking Network operates as a 501(c)(3) non-profit organization to bring together people who share an interest in using *better thinking* to create a *better future* – for individuals, organizations, and the world at large. Our theoretical grounding joins the work of Russell Ackoff, Edward de Bono, W. Edwards Deming, Tom Johnson, Peter Senge, Genichi Taguchi, and other world renowned business practitioners and theorists. Our efforts seek to explore, combine, and extend their thinking for the increase of consciousness and understanding about *how thinking can bring forth a better world*. We believe that by “thinking about thinking” – or *InThinking* – we can manage resources, acquire knowledge, work together, lead organizations, and plan more effectively. With InThinking we create a new awareness of various forms of thinking, their interdependency, the possible ways of integrating them, and including them - toward more joy and quality of life in individuals and organizations.

About Our 2011 Forum

Our Tenth Annual Forum, themed *Exploring Opportunities: Imagine...Define...Lead.....*, continues to expand “thinking about thinking”, raising the consciousness of better thinking in individuals and organizations. To that end, we have invited pioneering thinkers who are leaders in “*Exploring Opportunities*” to share their insights in a 6-day event that includes a weekend “conference,” preceded by 2 days of pre-conference sessions and followed by 2 days of post-conference sessions. In addition to pro-bono appearances by our conference presenters, we are partnering with additional members of our Network, who are also donating their time, to offer 19 pre- and post-conference seminars and workshops. These sessions range in length from 2-hours to 7-hours and are offered **without fee** to attend. In doing so, the In2:InThinking Network Annual Forum aims to promote an environment in which compelling ideas and insights evolve from intense exposure to new thoughts, thinking patterns, and InThinking colleagues, all at minimal cost. These ideas and insights may lead you in untold exciting directions in your work and life after the Forum, particularly if you continue to nurture new relationships through other Network activities throughout the year.
